

Northern Endurance Partnership launches statutory consultation on carbon capture pipeline to drive Humber decarbonisation and economic growth

- The Humber Carbon Capture Pipeline (HCCP) would transport carbon dioxide (CO₂) from carbon capture projects across the Humber region to permanent secure storage under the North Sea.
- HCCP is vital to decarbonising the Humber, while supporting local jobs and driving economic growth across a range of industries.
- Consultation will run from 29 October 2025 until 17 December 2025, with information provided online, at drop-in events and community centres.

29 October 2025: Northern Endurance Partnership (NEP) has today launched its statutory consultation for the Humber Carbon Capture Pipeline (HCCP), a proposed underground onshore pipeline with Above Ground Installations (AGIs) and a Pump Facility. The pipeline would transport CO₂ captured by carbon capture projects across the Humber to permanent secure storage under the North Sea.

As the UK's highest carbon-producing region, HCCP will help sustain the Humber's industrial legacy while cutting emissions, supporting jobs, and driving economic growth.

Consultation will run from 29 October to 17 December 2025, with 13 public drop-in events and two online sessions. Maps of the proposed pipeline route, AGI and Pump Facility locations, along with details of how the project team is working to manage construction considerably, will be available at events, online, and at information points along the route. Feedback can be submitted any time before 23:59 on 17 December 2025.

Rich Denny, Managing Director, Northern Endurance Partnership, said: *"The HCCP has the potential to be a game-changer for businesses across the Humber, driving economic growth while decarbonising operations. This consultation is a chance for people to have their say and help shape a project that builds on the region's proud industrial legacy."*

Feedback from an initial consultation in summer 2024 has been incorporated into the proposals published today. Further input from this consultation will help refine the project before a Development Consent Order (DCO) is submitted to the Secretary of State. Due to its scale, HCCP is classed as a Nationally Significant Infrastructure Project (NSIP) under the Planning Act 2008, which means it will follow a national planning process rather than a standard local one.

For project information, event details, printed material locations, and to take part in the consultation, visit www.nephccp.co.uk/consultation, email info@nephccp.co.uk, or call 0800 024 1436.

Notes to editors:

As part of the consultation, NEP is hosting thirteen in-person consultation events at local venues, as well as two webinars. The details of these events are below:

Location	Date	Event Time
East Halton Village Hall DN40 3NL	Tuesday 11 November	15:00 – 19:00
Goxhill Memorial Hall DN19 7JJ	Wednesday 12 November	14:00 – 18:00
South Killingholme Community Centre DN40 3EU	Friday 14 November	15:00 – 19:00
Wootton Village Hall DN39 6SG	Saturday 15 November	10:00 – 14:00
Easington Community Hall HU12 0TU	Friday 21 November	15:00 – 19:00
Thorngumbald Village Hall HU12 9NG	Saturday 22 November	10:00 – 14:00
South Ferriby Village Hall DN18 6HS	Monday 24 November	15:00 – 19:00
Garthorpe Village Hall DN17 4AD	Tuesday 25 November	15:00 – 19:00
West Halton Village Hall DN15 9AP	Thursday 27 November	15:00 – 19:00
Burton upon Stather Village Hall DN15 9DP	Friday 28 November	15:00 – 19:00
Drax Village Hall YO8 8NP	Tuesday 02 December	15:00 – 19:00
Crowle Community Hall DN17 4LL	Friday 05 December	15:00 – 19:00
Rawcliffe Village Hall DN14 8QR	Saturday 06 December	10:00 – 14:00
Online webinar Register on our website or by emailing us	Tuesday 18 November	13:00 – 14:00
Online webinar Register on our website or by emailing us	Weds 10 December	18:00 – 19:00
